## SDGs Alignment Cards Activity Report

### Overview

The Activity Report provides data about the dynamics of the solution ecosystem over time. It shows initiative activity for a selected SDGs Alignment Card data between two selected dates, including:

1. Total SDGs Alignment Card Initiatives, additions and removals
2. Target activity: the addition and removal of targets
3. Updates to target comments
4. Updates to any comments updated to 'Actual' status

		14/6/22					
SDGs Alignment Card		Disaster Resilience Greenville					
Date range		1/6/22	14/6/22				
		Initiatives beginning of period	Additions	Removals	Initiatives end of period		
<b>Total SDGs Alignment Card Initiatives</b>		<b>22</b>	<b>0</b>	<b>0</b>	<b>22</b>		
Sustainable Development Goals		Characteristics beginning of period	Additions	Removals	Characteristics end of period	New Comments Saved	Assigned Actuals
<b>SDGs Targets</b>							
<b>Goal 1. End poverty in all its forms everywhere</b>							
1.1	By 2030, eradicate extreme poverty for all people everywhere, currently measured as people living on less than \$1.25 a day	1	0	0	1	0	0
1.2	By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national standards	3	0	0	3	0	0
1.3	Implement nationally appropriate social protection systems and measures for all, including floors, and ensure that all men and women, in particular the poor and the vulnerable, have equal access to affordable and quality basic health-care services and basic social security	3	0	0	3	0	0
1.4	By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal access to financial services, including microfinance	4	0	0	4	0	0
1.5	By 2030, build the resilience of the poor and those in vulnerable situations and reduce their exposure and vulnerability to climate-related events and disasters	5	0	0	5	0	0
1.a	Ensure significant mobilization of resources from a variety of sources, including through enhanced cooperation, to meet financing requirements, including for risk management, resilience and disaster preparedness programmes	2	0	0	2	0	0
1.b	Create sound policy frameworks at the national, regional and international levels, based on evidence and best available science, to support the transition to a just and equitable low-carbon future	1	0	0	1	0	0
<b>Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture</b>							
2.1	By 2030, end hunger and ensure access by all people, in particular the poor and people in vulnerable situations, to safe, nutritious and sufficient food all year round	5	0	0	5	0	0
2.2	By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under-5s, and address the global nutrition deficiencies	6	0	0	6	0	0
2.3	By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, and secure their access to and control over land, other factors of production, knowledge and services	3	0	0	3	0	0
2.4	By 2030, ensure sustainable food production systems and implement resilient agricultural practices that increase productivity, help adapt to climate change, reduce greenhouse gas emissions, and strengthen ecosystems and soil	6	0	0	6	0	0
2.5	By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild relatives, including traditional varieties, locally adapted and indigenous breeds and varieties	5	0	0	5	0	0
2.a	Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension, technology development, and access to markets, services, and financial products	1	0	0	1	0	0
2.b	Correct and prevent trade restrictions and distortions in world agricultural markets, including through enhanced international cooperation, and improve market access for developing countries	0	0	0	0	0	0
2.c	Adopt measures to ensure the proper functioning of food commodity markets and their derivatives and facilitate effective and transparent international and regional food security systems, including their underpinnings	1	0	0	1	0	0
<b>Goal 3. Ensure healthy lives and promote well-being for all at all ages</b>							
3.1	By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births	1	0	0	1	0	0
3.2	By 2030, end preventable deaths of newborns and children under 5 years of age, with all countries aiming to reduce neonatal mortality to at least as low as 12 per 1,000 live births and under-5 mortality to at least as low as 30 per 1,000 live births	6	0	0	6	0	0

### 1. Total Transition Card Initiatives

These cells (Row 6) capture the changes to the **number of initiatives** on a selected SDGs Alignment Card between selected dates. The following data is captured:

1. **Initiatives beginning of period:** The total number of initiatives at the start of the date range.
2. **Additions:** The total number of initiatives added within the date range.
3. **Removals:** The total number of initiatives removed within the date range.
4. **Initiatives end of period:** The total number of initiatives at the end of the date range (= the total number of initiatives at the beginning of the date range, add additions during the date range, minus removals during the date range).

# Report explainer

## 2. Initiative Characteristics Activity

These cells (Rows 7 and below, and Columns B-E) capture the changes to the total **number of Targets** with Actual status on a selected SDGs Alignment Card between selected dates. The following data is captured:

5. **Targets beginning of period:** The total number of ITargets ticked across all Initiatives at the start of the date range.
6. **Additions:** The total number of Targets ticked (added) and saved with Actual status across all initiatives within the date range
7. **Removals:** The total number of Targets with Actual status unticked (removed) across all initiatives within the date range
8. **Characteristics end of period:** The total number of Targets ticked across all Initiatives +/- additions and removals at the end of the date range.

## 3. Updates to Characteristic comments

The Updates to Targets Comments are shown in (Column F, and Rows 7 and below). Column F captures the **total number of New Comments saved** to an initiative across the 169 targets on a selected SDGs Alignment Card between the selected dates.

Note: If the first comment for an Target was added between the dates selected, this will be included in the total for Updates to Targets Comments.

## Saved Comment data included in Activity Report

There are two ways to save comments data:

1. Updating Existing Comment – this is not included in Activity Report data.
2. Save New Comment – This is included in Activity Report data.

### 1. Updating Existing Comment

Updating Existing Comment is used to edit or update an existing comment when the way an initiative is addressing a target has not changed. This will edit the comment details in the history but the original date that it was entered will remain unchanged. Updating Existing Comment is used when rewording comments or adding additional information to a comment.

**Note:** Updating Existing Comment updates are **not** included as a Target Comment Update in the SDGs Alignment Card Activity Report.

## Report explainer

### 2. Save New Comment

Save New Comment is used when you are entering new data about how a target is being addressed, and how the target is being addressed is fundamentally different to how it was being addressed in the previous saved comment. Save New Comment is more than a change to the wording.

**Note:** These saved New Comments **are** included as a Target Comment Update in the SDGs Alignment Card Activity Report.

### Insights from this report

The Activity Report may be used to:

- Show changes to the number of initiatives in your solution ecosystem over a selected period of time.
- Highlight gaps in effort by summarising the total initiatives that have included each of the Targets across the 17 Sustainable Developments Goals and targets.
- Highlight those targets that may need strengthening.
- Show those targets that are being addressed by many initiatives.
- Show how initiatives are addressing a Target in a new way via comment updates during a selected time period.
